### Why do mazes work?

Bringing your group to Maize Quest is more than just an adventure in a cornfield. Groups respond to a Maize Quest visit in many ways. The most powerful response comes from the 'shared victory' they experience.

**Do you have a group that should work more like a team?** Would you like to break your group members out of their stereo-typed roles and 'cliques'? Can you picture working with a classroom of students or a troop of scouts that has practiced working as a team to solve problems? In what other areas of interaction could your group use these skills?

**At Maize Quest, parents, teachers, kids, leaders, and followers explore much more than a maze and find much more than 'the exit'.**

# More Attractions

**GEMSTONE MINING** - Grab a bag of dirt and mine for real gemstones in a real, flowing water mining sluice. We stock bags with gemstones, arrowheads, emeralds, and marbles. Each bag is \$5. (Because of popularity, we may not have all kinds of bags available all the time. Please call ahead for specialty bags other than gemstones.)

**STONE LABYRINTH** - The labyrinth recreates a design from the 11th century. Its pathways of pure white sand edged in river rocks lead to and from a 31,000-pound centerpiece boulder.

**BAMBOO FOREST** - The world's first maze of living bamboo, the Forest hides five Chinese dragons. Visitors search for the dragons as part of a fortune-telling game.

**EVER-CHANGING FENCE MAZE** - Learn more about each other as you create your Magic Totem Pole by finding the eight hidden Totems in the maze.

**ROPE MAZE** - Over 1,600 feet of nautical rope forms a path that leads to the deck of a pirate ship. Kids climb on deck to shout "Ahoy!" when they master the maze.

**MIST MAZE** - After visiting the other mazes, visitors cool off under the misters that line the paths of this new addition to the park. Get Lost! Get Fogged! Get Cool!

**FUN ZONE** - Climb, jump, balance, go through tunnels to challenge the newest obstacle course in the park. Can you make it around and stay on the "dots"?!

**POPPIT'S CORN BOX** - Inside Kid's Quest is a giant sandbox filled with corn kernels. Lil'Questers get to play, slide, and pour real corn under a shady roof.

**STRAW BALE MAZE** – Giant straw bales form the walls of two more mazes at the park. Kids enjoy running, climbing, crawling, and jumping on and around these structures.

**MAZE MOUNTAIN 80-FOOT TUBE SLIDE** - Visitors climb high above the cornfield and the mazes in the park to a platform atop Maze Mountain and the opening of a giant 80-foot long tube slide. It beckons kids of all ages.

**BOULDERDASH OBSTACLE ARENA** – Newly Redesigned! Take control of a gigantic rolling 'boulder' and see if you can navigate through a maze of obstacles.

**TILE MAZE(S)** – Deceptively simple? The smallest two mazes in the park? If you can figure them out in under 20 minutes, you are one of the top Maze Masters. The Tile Maze uses just 270 sixteen-inch tiles, but to get to the center you may only make Right Turns.

**TURF MAZE** – The Turf Maze is a demonstration maze that shows the ancient art of turf maze construction. It is a simple labyrinth form, cut by making a single trench in the 'turf' or grass. This is a quiet maze, near the stone labyrinth and is designed as a pleasant walk.

**MAIZE QUEST, THE CORNFIELD MAZE ADVENTURE** - The Original Maze! You're off to Sherwood Forest with that famous hero Robin Hood! Learn of his legend and the characters from the classic tale of good vs. evil. Watch out for the Sheriff of Nottingham!
